

## ENTRY LEVEL LANDSCAPE DESIGNER - COLORADO SPRINGS, COLORADO

**Education Requirements:** Bachelors in Landscape Architecture

**Experience Required:** 0-3 Years of Professional Experience

N.E.S. Inc., an established design-oriented Land Planning/Landscape Architecture firm serving municipal, institutional and development clients, seeks an energetic and creative Landscape Designer to join our design staff.

The ideal candidate would possess a self-starter attitude with excellent technical skills related to overall design, graphics and computer program knowledge relevant to the position. N.E.S. Inc. values candidates who are flexible and creative with a team-oriented attitude. A working knowledge of regional plant material, construction practices and municipal regulations is beneficial. Strong written and verbal communication skills are a must.

### **Job Description:**

The position requires creative design skills, superior hand and digital graphics, written communication abilities, and organizational proficiency. Under the supervision of senior staff, the candidate would work collaboratively in the production, design and support in community master planning, parks and open space plans, civic spaces, commercial site plans, land use plans, residential subdivision plans, planting plans, construction drawings, technical specifications, and cost estimates.

Experience with AutoCAD, Adobe Photoshop and Sketch Up software is a must. GIS and LandFX experience are desirable.

No phone calls please. Interested applicants should email a PDF document to include a letter of interest, resume, and design samples (including site renderings and sketches, construction documents, and design projects).
